Payment Systems: Stripe, Paymob, PayPal

Tools: Git, GitHub, Android Studio, VS Code, Postman, Figma

CI/CD: GitHub Actions

Core Features: Google Maps, Localization, Responsive UI, Dark Mode, Dependency Injection

Languages: Arabic (Native), English (Advanced)

Soft Skills: Collaboration, Communication, Time Management, Adaptability, Problem-Solving, Teamwork

Education

Alexandria University

Bachelor of Engineering, Computer and Communication Engineering

GPA: 3.41/4.00

2020 - 2025

Alexandria, Egypt

Professional Experience

Alexandria University (Part-Time)

April 2026 – Present

Flutter Developer — HR Module Application

Alexandria, Egypt

- Developed 10+ Flutter screens and 5+ reusable UI components for an HR management application.
- Implemented state management using Cubit/BLoC patterns, reducing state-related bugs by 20%.
- Integrated 3+ REST APIs and optimized screen load times to under 2 seconds across Android and iOS.

Oracle ERP Consultant

Sep 2025 – Present

Ejada Systems

Alexandria, Egypt

- Contributed to Oracle HCM Redwood implementation within the DOR module, supporting 500+ enterprise users.
- Customized and maintained 10+ Oracle Reports, improving HR reporting efficiency by 15%.

Flutter Developer

2026

Osus App | Flutter, Dart

Remote

- Developed and contributed to the **Osus** mobile application with 1,000+ downloads and a 4.5+ star rating on Google Play Store.
- Built 15+ responsive cross-platform UI components and integrated backend services using Flutter and Dart.

Key Projects

Deepfake Audio Detection System (Graduation Project) | Flutter, React, REST APIs

2024 – 2025

- Integrated AI-powered audio analysis services through REST APIs.
- Implemented speech-to-speech conversion and audio recording features.
- Applied Clean Architecture and Dependency Injection principles.

E-Commerce Mobile Application | Flutter, Firebase, Stripe, Paymob, PayPal, Cubit

2025

- Developed and deployed a full-stack e-commerce mobile app with 7+ screens using Flutter and Cubit state management.
- Implemented Firebase Authentication, Firestore database, and Cloud Storage for 3 payment gateways.
- Integrated secure payment gateways (Stripe, Paymob, PayPal)
- Implemented localization, dark mode, and responsive design, improving overall user experience.

Certifications & Training

Udemy: Flutter & Dart – The Complete Guide | Flutter Clean Architecture | Flutter BLoC State Management
